

Vickers & Nolan Enterprises (VNE)

CAPABILITIES

INTELLIGENT DESIGN FOR INTELLIGENCE SOLUTIONS

We are a *TECHNOLOGY* company

- CVE, SDVOSB & ISO 27001:2013 Certified
- Founded in 2004; 2020 Merged with GS5, LLC
- 110 employees
- **Foundation:** comprehensive understanding of Intelligence collection processes and the data used by collectors and managers
- **Mission:** to find, create, and apply the appropriate technologies to solve problems in the tactical intelligence community, using solid expertise in engineering and program management
- **Facilities:** VNE maintains both administrative offices and direct support facilities in Stafford, VA and Charleston, SC

Headquarters

Stafford, VA

Strategic Mission Locations

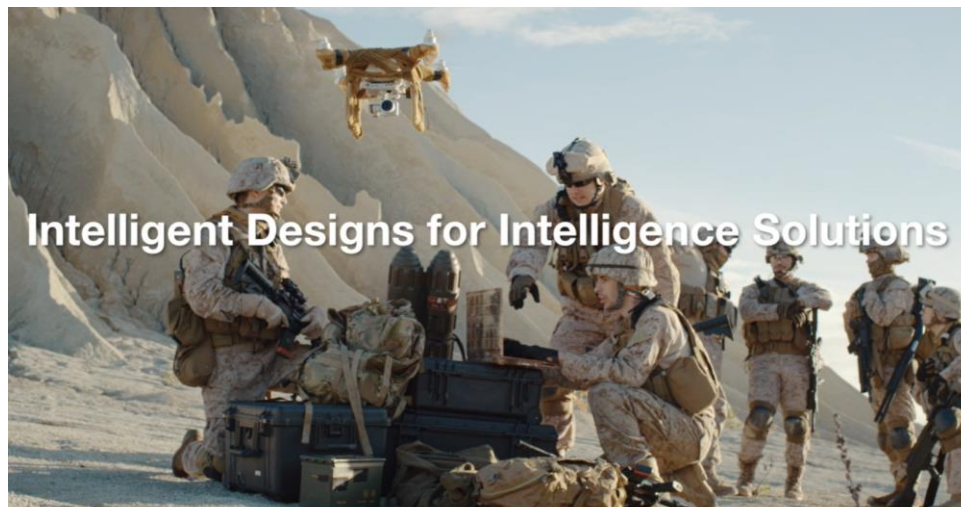

Quantico, VA

Charleston, SC

Virginia Beach, VA

Reston, VA

- **Improve** the effectiveness and efficiency of tactical C5ISR/Intelligence systems and training
- **Develop and integrate** software solutions that improve tactical C5ISR and related Intelligence operations
- **Assist** customers in defining their requirements and articulating exact needs to accurately select and develop technology solutions/products
- **Develop and facilitate training** utilizing a systematic approach that ensures the delivery of curricula that meets the specific need

Providing a range of services and products supporting C5ISR systems for the DoD and IC₃

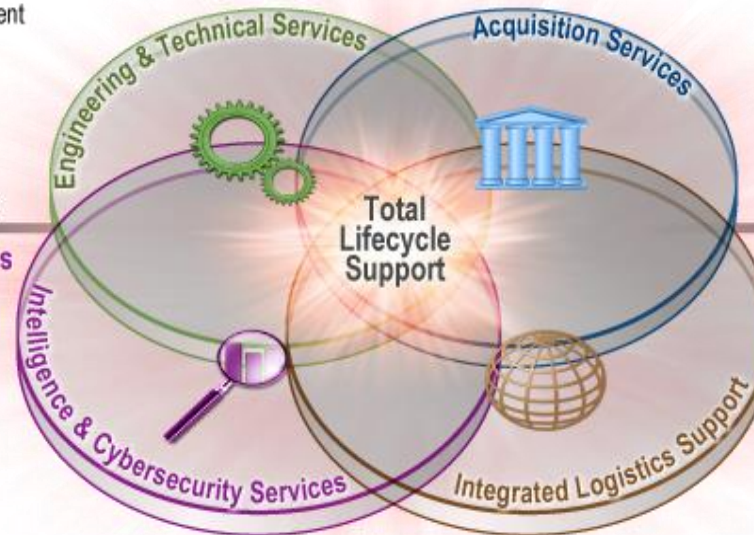

Engineering & Technical Services

- Systems Engineering & Software Development
- Technical, Architectural, & Design Analysis
- Hardware & Software Integration
- Test & Evaluation
- Network Engineering
- Systems Administration & Helpdesk Support

Intelligence & Cybersecurity Services

- DoD Intelligence Analysis & Tactical Operations
- Tactical Intelligence Training Curriculum
- RMF & Defensive Cyber Operations

Our Services...

Acquisition Services

- Program & Acquisition Lifecycle Support
- Program Management & Administration
- Procurement and Contract Support Services

Integrated Logistics Support

- Acquisition Logistics Support & Technical Data/Publication Development
- Equipment Fielding, Testing, & Field Service Representative (FSR) Support
- Training Program & Curriculum Development
- Classroom Instruction, Field Service Training & Computer-based Training (CBT) Development

...and Products

Software

.Net, Java, JavaScript, SQL, Hibernate, Spring, C#, Flash, Maven, Tomcat, XML, Jboss, etc.

Web Applications

Customized SharePoint & Web-based Tool Integration

Training Curriculum

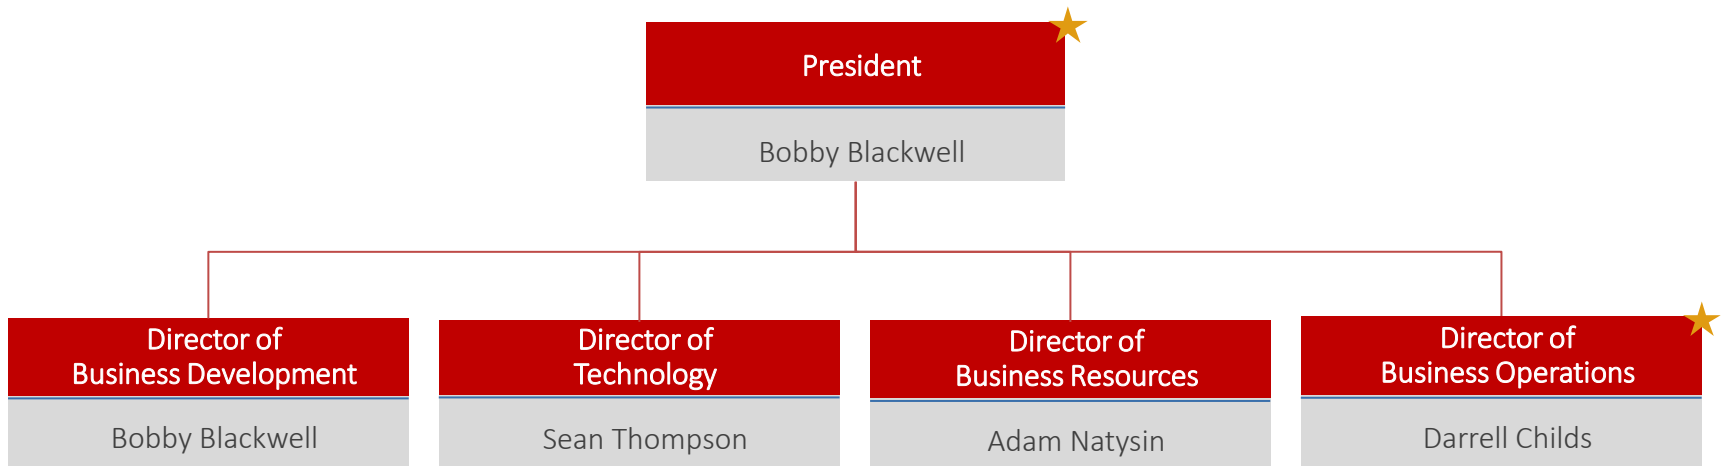

Tactical Intelligence Analysis Courseware & CBT Modules

Certified Personnel

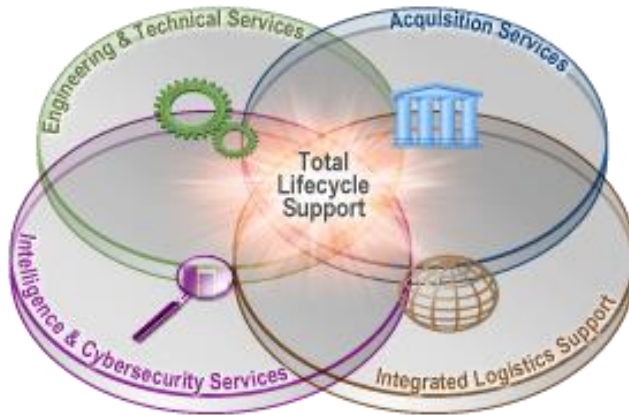

PMP & Cybersecurity Disciplines

Providing a range of services and products supporting C5ISR systems for the DoD and IC

A Valued Partner

Mission Oriented, Experienced Staff, Solving Problems, and Providing the Correct Layer of Support

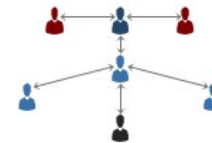

Trusted Professionals

We are value-added partners. We provide trusted professionals that stay laser-focused on mission accomplishment, getting things done, solving problems and bolstering value in all deliverables

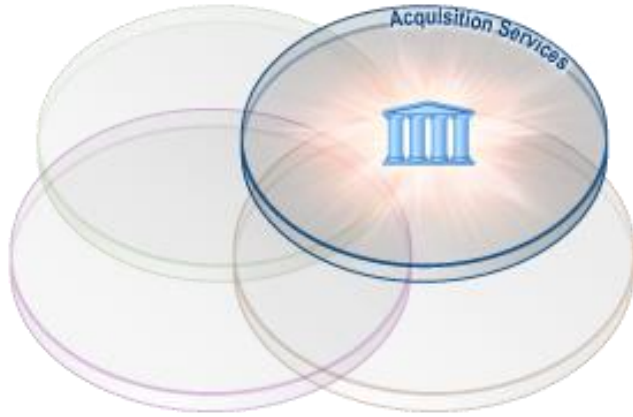

Mission-Oriented

Over 50% of VNE's staff comes with former military and/or Law Enforcement experience. Our staff holds full understanding of and commitment to customer mission

Direct Access

Our Program Managers are the primary interface to the customer with direct access to senior VNE management. We provide transparency, continuity, time savings and rapid resolution of issues with no bureaucratic overhead.

Current Capabilities

- ✓ PPBE Management
- ✓ Project Monitoring and Control
- ✓ System Transition & Strategic Planning
- ✓ Integrated Logistics Support
- ✓ Risk Management & Governance
- ✓ Strategic Communications
- ✓ Procurement Support (contracting, purchasing, solicitation documentation)
- ✓ Administrative support services
- ✓ Requirements Development Analysis and Management

Key Differentiators

- ✓ PMO experienced staff
- ✓ Project Management tool development and integration
- ✓ Flexibility to support “Big A and Little A” activities
- ✓ Professionally credentialed and certified staff in Acquisition Program Management and Logistics

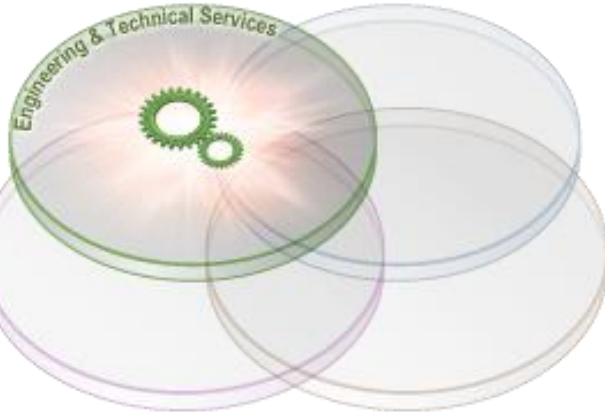

Key Customers

- ✓ U.S. Marine Corps
 - Marine Corps Intelligence Activity (MCIA)
 - Marine Corps Systems Command (MCSC)
 - Headquarters Marine Corps (HQMC) Deputy Commandant for Information (DC-I) War Room Division (WRD) Information Modernization Branch (I-Mods)
- ✓ U.S. Navy
 - Naval Information Warfare Center (NIWC)
- ✓ Federal Bureau of Investigation (FBI)
 - FBI Critical Incident Response Group

Key Programs

- ✓ Marine Corps Program Manager Intelligence Systems (PM IS)
- ✓ Marine Corps Intelligence, Surveillance, and Reconnaissance Enterprise (MCISR-E)
- ✓ USMC Intelligence Training and Systems Support (ITSS)
- ✓ FBI CIRG Counter-Improvised Explosive Device Section (CIEDS) Program Support Services
- ✓ Marine Corps Systems Command (MCSC) Management Control Activity (MCA) Professional Support Services

Current Capabilities

- ✓ Systems Engineering and Software Development
- ✓ Technical, Architectural and Design Analysis
- ✓ Science and Technology (S&T), Technology Assessment studies, and JCIDS support
- ✓ Research & Development, (R&D) and Rapid Technology Insertion (RTI)
- ✓ Hardware and Software Integration
- ✓ Test and Evaluation
- ✓ Network Engineering
- ✓ Systems Administration and Helpdesk Support

Key Customers

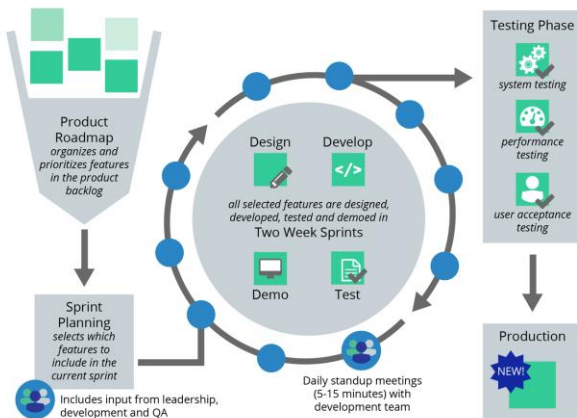

- ✓ U.S. Marine Corps
 - Marine Corps Intelligence Activity (MCIA)
 - Marine Corps Systems Command (MCSC)
 - Headquarters Marine Corps (HQMC) Deputy Commandant for Information (DC-I) War Room Division (WRD) Information Modernization Branch (I-Mods)
 - Distributed Common Ground/Surface System - Marine Corps (DCGS-MC) U.S. Navy
 - Naval Information Warfare Center (NIWC)
- Federal Bureau of Investigation (FBI)
 - FBI Critical Incident Response Group (CIRG)

Key Differentiators

- ✓ Experience providing IEEE Systems and Software Engineering process (IEEE 15288 & IEEE12207) compliant products and services
- ✓ Systems integrator for mission-critical capabilities
- ✓ Develop tactical intelligence software tools
- ✓ RTI of Marine Corps intelligence applications
- ✓ System, Software, Interoperability, and Operational Test Expertise
- ✓ Utilize Agile Development Processes
- ✓ Engineering expertise across the MCISR-E Programs of Record (PoR) / Systems

Key Programs

- ✓ Marine Corps Program Manager Intelligence Systems (PM IS)
- ✓ Marine Corps Intelligence, Surveillance, and Reconnaissance Enterprise (MCISR-E)
- ✓ Marine Corps Intelligence Support Services
- ✓ Information Modernization (I-Mods) (formerly known as RadBn Mods)
- ✓ Automated Collection Planning (ACP) Tool
- ✓ FBI CIRG CIEDS Program Support Services
- ✓ Distributed Common Ground/Surface System - Marine Corps (DCGS-MC) U.S. Navy

Current Capabilities

- ✓ Cybersecurity and Information Warfare
- ✓ Electronic Warfare (EW) and Electronic Countermeasures (ECM) Operations
- ✓ Multi-intelligence analysis to include SIGINT, GEOINT, All-Source, and CI/HUMINT
- ✓ Equipment training for Intelligence systems and tools
- ✓ Marine Corps Intelligence operations training
- ✓ Counter Radio Controlled Improvised Explosive Device (RCIED) and supporting ECM systems training and operational deployment

Key Differentiators

- ✓ Provide a variety of intelligence analysis products to USMC, Navy and FBI
- ✓ Operational expertise key to successful integration of intelligence systems and tools
- ✓ Expert knowledge of Intelligence operations supports development of TTPs
- ✓ Develop USMC Cybersecurity, EW and Information Warfare doctrine and requirements
- ✓ Provide Subject Matter Expertise and Instructors for curriculum development, classroom instruction at the Marine Corps Intelligence School (MCIS)

Key Customers

- ✓ U.S. Marine Corps
 - Marine Corps Intelligence Activity (MCIA)
 - Marine Corps Systems Command (MCSC)
 - Headquarters Marine Corps (HQMC) Deputy Commandant for Information (DC-I) War Room Division (WRD)
 - Marine Corps Intelligence School (MCIS)
- ✓ Naval Information Warfare Center (NIWC)
- ✓ Defense Treat Reduction Agency
- ✓ Federal Bureau of Investigation (FBI)
 - FBI Critical Incident Response Group (CIRG)

Key Programs

- ✓ Marine Corps Intelligence, Surveillance, and Reconnaissance Enterprise (MCISR-E)
- ✓ USMC Intelligence Training and Systems Support (ITSS)
- ✓ Information Modernization Branch (I-Mods)
- ✓ National Tactical Integration / TENCAP
- ✓ Marine Corps Program Manager Intelligence Systems (PM IS)
- ✓ Automated Collection Planning (ACP) Tool
- ✓ FBI CIRG CIEDS Program Support Services
- ✓ Integrated Mission, Analysis and Operations (IMAX) Mission Information Technology (MIT)

Current Capabilities

- ✓ Cybersecurity, EW, Information Warfare and Operations in the Information Environment
- ✓ Risk Management Framework (RMF) support
- ✓ Assessment & Authorization (A&A) and Certification and Accreditation (C&A) to achieve ATO compliance
- ✓ Computer Network Defense, IA Security Architecture Engineering, and IA Management
- ✓ Enterprise Information Services (EIS) systems/software/networks
- ✓ Network Operations Center and Process, Exploitation and Dissemination (PED) support

Key Differentiators

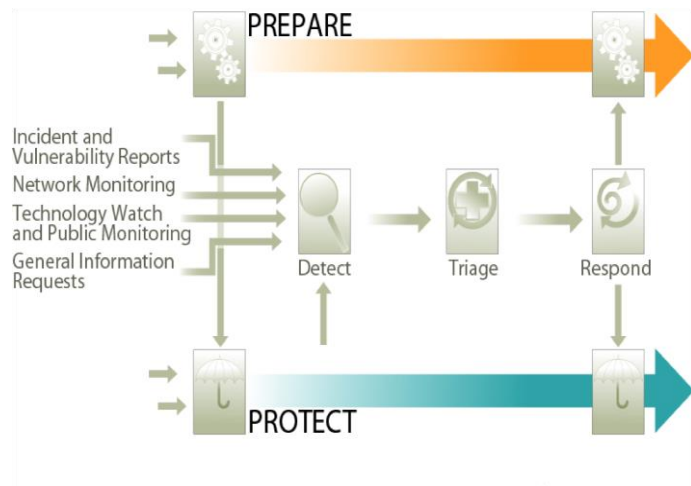

- ✓ Design, development, integration, testing, deployment & sustainment of the MCISR-E
- ✓ Develop USMC Cybersecurity, EW and Information Warfare doctrine and requirements
- ✓ Provided 24x7x365 Cybersecurity watch for the MCIA Network Operations Center (NOC)
- ✓ Provided IA Support, IA Planning, IAM, IAT, ISSM, IA Officer/Information System Security Officer support to MCIA
- ✓ Operated, tuned, and maintained MCISR-E and NOC Cybersecurity tools, software, devices, appliances, systems and networks

Key Customers

- ✓ USCYBERCOM J2
- ✓ U.S. Marine Corps
 - Marine Corps Intelligence Activity (MCIA)
 - Headquarters Marine Corps (HQMC) Deputy Commandant for Information (DC-I) War Room Division (WRD)
 - Information Modernization Branch (I-Mods)
- ✓ U.S. Navy
 - Naval Information Warfare Center (NIWC)

Key Programs

- ✓ Intelligence Services for CYBERCOM (ISC) Analytic Support (USCYBERCOM J2)
- ✓ USMC Intelligence Training and Systems Support (ITSS)
- ✓ Information Modernization Branch (I-Mods)
- ✓ Marine Corps Intelligence, Surveillance, and Reconnaissance Enterprise (MCISR-E)
- ✓ MCIA MCISR-E Information Technology (IT) Support Services

Current Capabilities

- ✓ Acquisition logistics support
- ✓ Documentation development
 - Program-level logistics documentation
 - Technical data and publication development
 - Fielding and sustainment documentation
- ✓ Enterprise logistics and asset management
- ✓ Fielding and PHS&T support
- ✓ Equipment delivery, set up, testing, and field service representative (FSR) support
- ✓ Training program and curriculum development
- ✓ Classroom instruction and field service training
- ✓ Computer-based training (CBT)

Key Differentiators

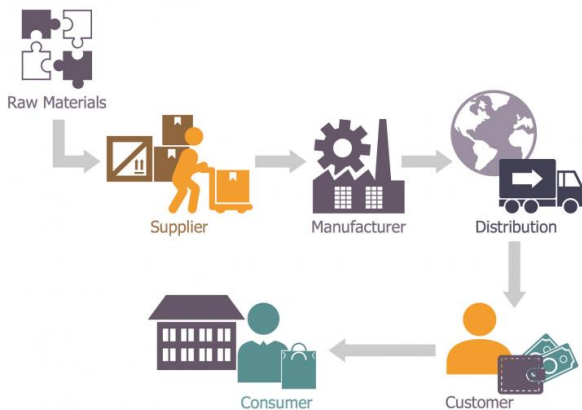

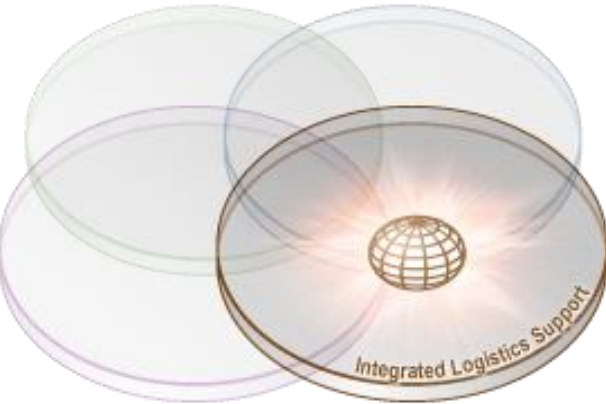

- ✓ Provided acquisition logistics support for MCISR-E Programs of Record (PoR)
- ✓ Provide logistics management, fielding and sustainment support, and training for the FBI CIRG CIEDS equipment program
- ✓ Provide asset management and PHS&T support for I-Mods, MCIA IT support, and MCIS programs
- ✓ Maintain ASID records and DPAS for MCIA and MCIS assets
- ✓ Curriculum development and classroom instruction at the MCIS, training of MCISR-E PoRs, and develop CBTs for USMC Intelligence systems
- ✓ Training program support to the FBI CIRG

Key Customers

- ✓ U.S. Marine Corps
 - Marine Corps Intelligence Activity (MCIA)
 - Marine Corps Systems Command (MCSC)
 - Headquarters Marine Corps (HQMC) Deputy Commandant for Information (DC-I) War Room Division (WRD) Information Modernization Branch (I-Mods)
 - Marine Corps Intelligence School (MCIS)
- ✓ U.S. Navy
 - Naval Information Warfare Center (NIWC)
- ✓ Federal Bureau of Investigation (FBI)
 - FBI Critical Incident Response Group (CIRG)

Key Programs

- ✓ FBI CIRG Counter-Improvised Explosive Device Section (CIEDS) Program Support
- ✓ USMC Intelligence Training and Systems Support (ITSS)
- ✓ Marine Corps Intelligence, Surveillance, and Reconnaissance Enterprise (MCISR-E)
- ✓ Information Modernization Branch (I-Mods)
- ✓ Marine Corps Program Manager Intelligence Systems
- ✓ Management Control Activity (MCA) Professional Support Services
